Proper Citation: Cooperative Human Tissue Network Western Division at Vanderbilt University Medical Center (RRID:SCR_006661)

Description: The Cooperative Human Tissue Network- Western Division at Vanderbilt University Medical Center is one of six institutions throughout the country funded by the National Cancer Institutes to procure and distribute remnant human tissues to biomedical researchers throughout the United States and Canada. CHTN operates through a shared networking system which allows investigators greater access to available research specimens. CHTN offers a variety of preparation and preservation techniques to ensure investigators are receiving the quality specimens needed for research. Remnant tissues are obtained from surgical resections and autopsies and are procured to the specifications of the investigator.

Abbreviations: CHTN Western Division

Synonyms: CHTN Western Division at VUMC, Cooperative Human Tissue Network - Western Division, VUMC Tissue Repository

Resource Type: biomaterial supply resource, tissue bank, material resource

Keywords: tissue

Related Condition: All

Funding: NCI

Availability: Public

Resource Name: Cooperative Human Tissue Network Western Division at Vanderbilt University Medical Center

Resource ID: SCR_006661

Alternate IDs: nlx_143710

Record Creation Time: 20220129T080237+0000

Record Last Update: 20250416T063442+0000
