## Type 1 Diabetes Preclinical Testing Program

RRID:SCR\_006861

Type: Tool

### Proper Citation

Type 1 Diabetes Preclinical Testing Program (RRID:SCR\_006861)

### Resource Information

**URL:** <http://www.t1diabetes.nih.gov/T1D-PTP/>

**Proper Citation:** Type 1 Diabetes Preclinical Testing Program (RRID:SCR\_006861)

**Description:** THIS RESOURCE IS NO LONGER IN SERVICE, documented August 22, 2016. Investigator access is provided to the established facilities and expertise needed to extend, enhance and validate preclinical studies of promising new therapeutics in cases where additional preclinical testing is needed to validate potential therapies under disease-specific conditions and in multiple animal models before therapeutics can enter the Type 1 Diabetes Rapid Access to Intervention Development (T1D-RAID) development pipeline. The T1D-RAID program provides resources for pre-clinical development of drugs, natural products, and biologics that will be tested as new therapeutics in type 1 diabetes clinical trials. The T1D-RAID program is not currently accepting applications. The T1D-PTP program currently supports two contracts, which are separate from each other and from the T1D-RAID NCI contract resources, to assist in preclinical development of therapeutics for T1D: \* Agents to be tested for Preclinical Efficacy in Prevention or Reversal of Type 1 Diabetes in Rodent Models. Type 1 Diabetes Preclinical Testing Program (T1D-PTP) (NOT-DK-09-006) \* Needs for Preclinical Efficacy Testing of Promising Agents to Prevent or Reverse Diabetic Complications (NOT-DK-09-009) The T1D-RAID and T1D-PTP are programs intended to remove the most common barriers to progress in identification and development of new therapies for Type 1 Diabetes. The common goal of these programs is to support and provide for the preclinical work necessary to obtain proof of principle establishing that a new molecule or novel approach will be a viable candidate for expanded clinical evaluation.

**Abbreviations:** T1D-PTP, NIDDKT1D-PTP

**Synonyms:** Type 1 Diabetes Preclinical Testing Program (T1D-PtP), NIDDKType 1 Diabetes Preclinical Testing Program

**Resource Type:** service resource, resource

**Keywords:** testing, therapeutic, clinical, drug, preclinical, therapy, drug development, high-throughput screening, animal model, formulation, pharmacology, toxicology

**Related Condition:** Type 1 diabetes, Diabetes

**Funding:** NIDDK

**Availability:** THIS RESOURCE IS NO LONGER IN SERVICE

**Resource Name:** Type 1 Diabetes Preclinical Testing Program

**Resource ID:** SCR\_006861

**Alternate IDs:** nlx\_152741

**Record Creation Time:** 20220129T080238+0000

**Record Last Update:** 20250425T055550+0000
