Proper Citation: University of California, Riverside, Department of Cell Biology and Neuroscience (RRID:SCR_007500)

Description: Research in the Department of Cell Biology and Neuroscience uses multidisciplinary approaches to understanding basic cellular processes in various tissues, including the nervous system, as well as more integrative levels of analysis, including behavior. Areas of research represented in the department include biophysical properties of excitable membranes, DNA repair, transcriptional regulation, mechanisms of toxicity, insect development, membrane transport, mechanisms of mitotic chromosome transmission, telomere maintenance, synaptic structure and function, changes in nervous system with experience, interactions of nervous and endocrine systems, reproductive biology and fertilization, chemokine function in wound healing and tumor development, glia-neuron signaling, & brainstem and spinal cord control of locomotion.

Synonyms: CBNS

Resource Type: data or information resource, department portal, organization portal, portal

Resource Name: University of California, Riverside, Department of Cell Biology and Neuroscience

Resource ID: SCR_007500

Alternate IDs: nif-0000-02147

Record Creation Time: 20220129T080242+0000

Record Last Update: 20260912T195656+0000

Ratings and Alerts

No rating or validation information has been found for University of California, Riverside, Department of Cell Biology and Neuroscience.

No alerts have been found for University of California, Riverside, Department of Cell Biology and Neuroscience.
