BciPep

RRID:SCR_007559

Type: Tool

Proper Citation

BciPep (RRID:SCR_007559)

Resource Information

URL: <http://bioinformatics.uams.edu/mirror/bcipep/>

Proper Citation: BciPep (RRID:SCR_007559)

Description: Bcipep is collection of the peptides having the role in humoral immunity. The peptides in the database have varying measure of immunogenicity. This database can assist in the development of methods for predicting B cell epitopes, designing synthetic vaccines, and in disease diagnosis. These peptides lead to the generation of antibodies which combine with antigens and are responsible for the host defense, and can be very useful for subunit vaccine designing. The database has 3031 peptide entries. For each peptide, the user can find a plethora of information, including entry number, peptide sequence, pathogen group, protein source, antigen structure, antibody, etc.

Synonyms: BciPep

Resource Type: data or information resource, database

Keywords: antibody, antigen, antigen structure, b cell, b cell epitope, b cell receptor, bcr, humoral immunity, ig, vaccine

Resource Name: BciPep

Resource ID: SCR_007559

Alternate IDs: nif-0000-02597

Record Creation Time: 20220129T080242+0000

Record Last Update: 20260821T193812+0000

Ratings and Alerts

No rating or validation information has been found for BciPep.

No alerts have been found for BciPep.
