MRlcro Software

RRID:SCR_008264

Type: Tool

Proper Citation

MRlcro Software (RRID:SCR_008264)

Resource Information

URL: <http://www.cabiatl.com/mricro/>

Proper Citation: MRlcro Software (RRID:SCR_008264)

Description: MRlcro allows Windows and Linux computers view medical images. It is a standalone program, but includes tools to complement SPM (software that allows neuroimagers to analyze MRI, fMRI and PET images). MRlcro allows efficient viewing and exporting of brain images. In addition, it allows neuropsychologists to identify regions of interest (ROIs, e.g. lesions). MRlcro can create Analyze format headers for exporting brain images to other platforms. Some features of MRlcro are: - Converts medical images to SPM friendly Analyze format. - View Analyze format images (big or little endian). - Create Analyze format headers (big or little endian). - Create 3D regions of interest (with computed volume & intensity). - Overlap multiple regions of interest. - Rotate images to match SPM template images. - Export images to BMP, JPEG, PNG or TIF format. - Yoked images: linked viewing of multiple images (e.g. view same coordinates of PET and MRI scans). Users familiar with other Windows programs will find that this software is fairly straightforward to use. Resting the mouse cursor over a button will cause a text hint to appear over the button. However, a tutorial with a step by step guide of how to use MRlcro with SPM is available.

Synonyms: MRlcro

Resource Type: data analysis software, data processing software, data visualization software, software application, software resource

Keywords: export, fmri, 3d, brain, intensity, lesions, medical, mri, neuroimager, neuropsychologist, pet, platform, region, software, view, volume, image

Resource Name: MRlcro Software

Resource ID: SCR_008264

Alternate IDs: nif-0000-23298

Record Creation Time: 20220129T080246+0000

Record Last Update: 20260821T193839+0000

Ratings and Alerts

No rating or validation information has been found for MRICro Software.

No alerts have been found for MRICro Software.
