Python Programming Language

RRID:SCR_008394

Type: Tool

Proper Citation

Python Programming Language (RRID:SCR_008394)

Resource Information

URL: <http://www.python.org/>

Proper Citation: Python Programming Language (RRID:SCR_008394)

Description: Programming language for all operating systems that lets users work more quickly and integrate their systems more effectively. Often compared to Tcl, Perl, Ruby, Scheme or Java. Some of its key distinguishing features include very clear and readable syntax, strong introspection capabilities, intuitive object orientation, natural expression of procedural code, full modularity, exception-based error handling, high level dynamic data types, extensive standard libraries and third party modules for virtually every task, extensions and modules easily written in C, C (or Java for Python, or .NET languages for IronPython), and embeddable within applications as a scripting interface.

Synonyms: Python3, Python

Resource Type: programming language, software resource

Keywords: programming language

Funding:

Availability: Free, Public, Freely available

Resource Name: Python Programming Language

Resource ID: SCR_008394

Alternate IDs: nif-0000-30053

License: Open Source licence

Record Creation Time: 20220129T080247+0000

Record Last Update: 20250418T055201+0000

Ratings and Alerts

No rating or validation information has been found for Python Programming Language.

No alerts have been found for Python Programming Language.
