Proper Citation: Rush Alzheimer's Disease Center (RRID:SCR_008763)

Description: An Alzheimer's disease center which researches the cause, treatment and prevention of Alzheimer's disease with a focus on four main areas of research: risk factors for Alzheimer's and related disorders, the neurological basis of the disease, diagnosis, and treatment. Data includes a number of computed variables that are available for ROS, MAP and MARS cohorts. These variables are under categories such as affect and personality, chronic medical conditions, and clinical diagnosis. Specimens include ante-mortem and postmortem samples obtained from subjects evaluated by ROS, MAP and clinical study cores. Specimen categories include: Brain tissue (Fixed and frozen), Spinal cord, Muscles (Postmortem), and Nerve (Post-mortem), among other types of specimens. Data sharing policies and procedures apply to obtaining ante-mortem and post-mortem specimens from participants evaluated by the selected cohorts of the RADC.

Abbreviations: RADC

Synonyms: Rush ADC, Rush Alzheimer's Disease Center

Resource Type: brain bank, biomaterial supply resource, material resource, tissue bank

Keywords: clinical, post mortem, ante mortem, late adult human, brain, tissue, spinal cord, muscle, nerve, dna, lymphocyte, serum, plasma, urine, fixed, frozen, cryopreserved, alzheimer's disease, memory

Related Condition: Alzheimer's disease, Alzheimer's-related disorder, Aging

Funding: NIA

Availability: Available to the research community, Data sharing policies apply to both data

and specimens

Resource Name: Rush Alzheimer's Disease Center

Resource ID: SCR_008763

Alternate IDs: nlx_144050
