Proper Citation: National Bio-Organic Biomedical Mass Spectrometry Resource Center (RRID:SCR 009004)

Description: Provides high-performance tandem mass spectrometry and proteomics. including multiplexed quantitative comparative analysis of protein and post-translational modifications, and a suite of tools for the analysis of mass spectrometry proteomics data. It provides both scientific and technical expertise and state-of-the-art high-performance, tandem mass spectrometric instrumentation. The facility also provides a service for small molecule analysis. Significant instrumentation in the facility includes three QSTAR quadrupole orthogonal time of flight instruments, and both an LTQ-Orbitrap platform with electron transfer dissociation (ETD) and an LTQ-FT linear ion trap FT-ICR instrument equipped with the ability to perform electron capture dissociation (ECD). The Center also has a 4700 Proteomic Analyzer MALDI tandem time of flight instrument; as well as a QTRAP 5500 hybrid triple quadrupole linear ion trap instrument; and a Thermo Fisher LTQ Orbitrap Velos. Major research focuses within the Center are the analysis of post-translational modifications, including phosphorylation and O-GlcNAcylation and development of methods for quantitative comparative analysis of protein and post-translational modification levels. The program also continues to develop one of the leading suites of tools for analysis of mass spectrometry proteomics data, Protein Prospector. The current web-based release allows unrestricted searching of MS and MSMS data, as well as the ability to perform comparative quantitative analysis of samples using isotopic-labeling reagents. It is the only freelyavailable web-based resource that allows this type of analysis.

Abbreviations: Mass Spectrometry Facility

Synonyms: UCSF Mass Spectrometry Facility

Resource Type: biomedical technology research center, training resource

Keywords: systems biology technology center, mass spectrometry, proteomics

Funding: NCRR; NIGMS P41GM103481

Resource Name: National Bio-Organic Biomedical Mass Spectrometry Resource Center

Resource ID: SCR_009004

Alternate IDs: nlx_152680

Record Creation Time: 20220129T080250+0000

Record Last Update: 20250503T060047+0000

Ratings and Alerts

No rating or validation information has been found for National Bio-Organic Biomedical Mass Spectrometry Resource Center.

No alerts have been found for National Bio-Organic Biomedical Mass Spectrometry Resource Center.
