Resource Information

URL: <https://www.ncbi.nlm.nih.gov/pubmed/18174824>

Proper Citation: Mexican Adolescent Mental Health Survey (RRID:SCR_009654)

Description: A face-to-face household survey of assessing the prevalence of mental health disorders in a probability sample of 3005 adolescents aged 12-17 years residing in the Mexico City metropolitan area during 2005. The prevalence of mental health disorders and the use of services were assessed with the computer-assisted adolescent version of the World Mental Health Composite International Diagnostic Interview.

Abbreviations: MAHMS

Resource Type: clinical trial, data or information resource, data set
