# **UH Manoa Biological Electron Microscope Facility**

RRID:SCR\_010087 Type: Tool

### **Proper Citation**

UH Manoa Biological Electron Microscope Facility (RRID:SCR\_010087)

#### **Resource Information**

URL: http://hawaii.eagle-i.net/i/0000012b-1c5f-469c-06c2-9c7f80000000

Proper Citation: UH Manoa Biological Electron Microscope Facility (RRID:SCR\_010087)

**Description:** Core facility that provides the following services: Scanning electron microscopy service, Conventional and energy-filtering transmission electron microscopy service, Laser scanning confocal microscopy service, Fluorescence microscopy service, Laser microdissection and laser tweezing service. The Biological Electron Microscope Facility (BEMF) at the University of Hawai'' is a multi-user/service facility, administered by the Pacific Biosciences Research Center (PBRC). The mission of the BEMF is to provide biological-biomedical researchers with state-of-the-art instrumentation, training and services for high-resolution scanning electron microscopy, conventional and energy-filtering transmission electron microscopy, optical, fluorescence, and laser scanning confocal microscopy, and image analysis on a recharge basis. The facility receives partial support from the Pacific Biosciences Research Center and the UH Manoa Chancellor''s Office. Includes the Richard Allen Image Collection, a unique set of images taken with electron microscopes (http://www5.pbrc.hawaii.edu/allen/).

Resource Type: access service resource, service resource, core facility

Keywords: microscopy, microdissection

Funding:

Resource Name: UH Manoa Biological Electron Microscope Facility

Resource ID: SCR\_010087

Alternate IDs: nlx\_156555

Record Creation Time: 20220129T080256+0000

Record Last Update: 20250418T055234+0000

#### **Ratings and Alerts**

No rating or validation information has been found for UH Manoa Biological Electron Microscope Facility.

No alerts have been found for UH Manoa Biological Electron Microscope Facility.
