# **UTSA RCMI Computational Systems Biology Core**

RRID:SCR 010148

Type: Tool

## **Proper Citation**

UTSA RCMI Computational Systems Biology Core (RRID:SCR\_010148)

#### **Resource Information**

**URL:** http://utsa.eagle-i.net/i/00000135-2f42-aa68-d7c8-cf3780000000

**Proper Citation:** UTSA RCMI Computational Systems Biology Core (RRID:SCR\_010148)

**Description:** Core facility that provides the following services: Computational systems biology data analysis assistance, Biological computational software installation service. The objective of the Computational Systems Biology Core facility (CSBC) is to provide computational support for basic and translational health research at UTSA with the following specific aims: - Build the computational infrastructure to support modeling and simulation of biological systems - Live cell imaging - Protein Biomarker research

Resource Type: core facility, access service resource, service resource

**Keywords:** nucleic acid microarray assay, pathway data analysis, protein assay, gene expression analysis assay, computational modeling technique

Funding:

Resource Name: UTSA RCMI Computational Systems Biology Core

Resource ID: SCR\_010148

Alternate IDs: nlx\_156628

**Record Creation Time:** 20220129T080257+0000

Record Last Update: 20250513T061208+0000

### **Ratings and Alerts**

No rating or validation information has been found for UTSA RCMI Computational Systems Biology Core.

No alerts have been found for UTSA RCMI Computational Systems Biology Core.

## Data and Source Information

Source: SciCrunch Registry

## Usage and Citation Metrics

We have not found any literature mentions for this resource.
