Proper Citation

Vanderbilt High Throughput Screening Facility (RRID:SCR_010180)

Resource Information

URL: <http://eagle-i.ea.vanderbilt.edu/i/00000139-114b-ebaa-dacb-da6080000000>

Proper Citation: Vanderbilt High Throughput Screening Facility (RRID:SCR_010180)

Description: Core facility that provides the following services: Assay Design and Development, High Throughput Screening and automated data analysis. The biology and screening team is responsible for developing, adapting, and automating the HTS assay from the benchtop assay provided by the collaborator. We work closely with the providing researcher to insure that the assay is rapidly moved into high-throughput screening. Once the assay has been validated, the screening of the small molecule library begins. Generally, the screen is expanded to accommodate the full compound library; however, structure-specific searches can be made if the required reagents are limited or costly.

Resource Type: access service resource, core facility, service resource

Keywords: high throughput sample analysis

Funding:

Resource Name: Vanderbilt High Throughput Screening Facility

Resource ID: SCR_010180

Alternate IDs: nlx_156659

Record Creation Time: 20220129T080257+0000

Record Last Update: 20250407T215842+0000

Ratings and Alerts

No rating or validation information has been found for Vanderbilt High Throughput Screening Facility.

No alerts have been found for Vanderbilt High Throughput Screening Facility.
