AgingDB

RRID:SCR_010226

Type: Tool

Proper Citation

AgingDB (RRID:SCR_010226)

Resource Information

URL: <http://link.springer.com/article/10.1007%2Fs11357-003-0002-y>

Proper Citation: AgingDB (RRID:SCR_010226)

Description: A database that stores information on the biomolecules which are modulated during aging and by caloric restriction (CR). To enhance its usefulness, data collected from studies of CR's anti-oxidative action on gene expression, oxidative stress, and many chronic age-related diseases are included. AgingDB is organized into two sections A) apoptosis and the various mitochondrial biomolecules that play a role in aging; B) nuclear transcription factors known to be sensitive to oxidative environment. AgingDB features an imagemap of biomolecular signal pathways and visualized information that includes protein-protein interactions of biomolecules. Authorized users can submit a new biomolecule or edit an existing biomolecule to reflect latest developments.

Abbreviations: AgingDB

Synonyms: Aging Database, Aging DB

Resource Type: data or information resource, data repository, database, service resource, storage service resource

Defining Citation: [PMID:23604914](#)

Keywords: oxidative stress, calorie restriction, pathway, biomolecule, signal pathway, interaction, gene, protein, protein-protein interaction, apoptosis, mitochondrial, nuclear transcription factor

Related Condition: Aging

Availability: The community can contribute to this resource

Resource Name: AgingDB

Resource ID: SCR_010226

Alternate IDs: nlx_156773

Old URLs: <http://aging.pharm.pusan.ac.kr/AgingDB/>

Record Creation Time: 20220129T080257+0000

Record Last Update: 20260821T193913+0000

Ratings and Alerts

No rating or validation information has been found for AgingDB.
