Translational Medicine Ontology

RRID:SCR_010439

Type: Tool

Proper Citation

Translational Medicine Ontology (RRID:SCR_010439)

Resource Information

URL: http://purl.bioontology.org/ontology/TMO

Proper Citation: Translational Medicine Ontology (RRID:SCR_010439)

Description: A high level patient-centric ontology for the pharmaceutical industry. The ontology should enable silos in discovery research, hypothesis management, experimental studies, compounds, formulation, drug development, market size, competitive data, population data, etc. to be brought together. This would enable scientists to answer new questions, and to answer existing scientific questions more quickly. This will help pharmaceutical companies to model patient-centric information, which is essential for the tailoring of drugs, and for early detection of compounds that may have sub-optimal safety profiles. The ontology should link to existing publicly available domain ontologies.

Abbreviations: TMO

Resource Type: data or information resource, controlled vocabulary, ontology

Keywords: owl

Funding:

Resource Name: Translational Medicine Ontology

Resource ID: SCR_010439

Alternate IDs: nlx_157616

Record Creation Time: 20220129T080258+0000

Record Last Update: 20250429T055435+0000

Ratings and Alerts

No rating or validation information has been found for Translational Medicine Ontology.

No alerts have been found for Translational Medicine Ontology.
