Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented January 23, 2019. Core supports SBMRI investigators in exploring, understanding and analyzing complex biological data. Core is equipped with cutting-edge computational infrastructure and a selective collection of bioinformatics software. Core's services include consultation, data analysis and management, software development, and accessing to large computing resources. To meet various demands from the investigators, we provide services at multiple levels, from full service to cost-effective limited service as well as collaborative projects requiring longer-term commitment of time and effort.
