Columbia Chemical Probe Synthesis Facility

RRID:SCR_012247

Type: Tool

Proper Citation

Columbia Chemical Probe Synthesis Facility (RRID:SCR_012247)

Resource Information

URL: <http://www.scienceexchange.com/facilities/chemical-probe-synthesis-facility>

Proper Citation: Columbia Chemical Probe Synthesis Facility (RRID:SCR_012247)

Description: Located in the new Northwest Corner building on the Morningside campus of Columbia University in New York City, the Columbia University Chemical Probe Synthesis Facility (CPS facility) is a shared resource that assists researchers in designing and synthesizing small molecule probes for stem cell research projects. The CPS facility offers expertise, advice and services in the following areas: 1. Virtual screening and computational design of small molecules 2. Organic synthesis of individual compounds, building blocks or libraries of compounds 3. Drug metabolism/pharmacokinetics (DMPK) and metabolic profiling of small molecules

Abbreviations: Columbia CPS Facility

Synonyms: Columbia University Chemical Probe Synthesis Facility

Resource Type: access service resource, core facility, service resource

Funding:

Resource Name: Columbia Chemical Probe Synthesis Facility

Resource ID: SCR_012247

Alternate IDs: SciEx_11010

Record Creation Time: 20220129T080309+0000

Record Last Update: 20250412T055620+0000

Ratings and Alerts

No rating or validation information has been found for Columbia Chemical Probe Synthesis Facility.

No alerts have been found for Columbia Chemical Probe Synthesis Facility.
