Proper Citation: Australian National Fabrication Facility Labs and Facilities (RRID:SCR 012579)

Description: The ANFF provides leading-edge research capability and supports excellence in science. The capability provided by ANFF enables users to process hard materials (metals, composites and ceramics) and soft materials (polymers and polymer-biological moieties) and transform these into structures that have application in sensors, medical devices, nanophotonics and nanoelectronics. It has a strong emphasis on service provision to the research community. ANFF seeks to enhance national and international collaborations and enable world-class-research.
