Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on May 15,2024. Nucleic Acids Core Facility offers automated DNA sequencing with data analysis, custom DNA synthesis, genome project services, gene amplification services, and robotic application custom projects. These services are provided to researchers at the HSC and others in the surrounding scientific community. Our mission is to offer high quality synthesis and sequencing services to researchers through cutting edge instrumentation and a service-oriented and knowledgeable staff.
