Proper Citation: GLOBOCAN (RRID:SCR_012750)

Description: The aim of the project is to provide contemporary estimates of the incidence of, mortality and prevalence from major types of cancer, at national level, for 184 countries of the world. The GLOBOCAN estimates are presented for 2012, separately for each sex. 1-, 3- and 5-year prevalence data are available for the adult population only (ages 15 and over). Please note that: These estimates are based on the most recent data available at IARC and on information publically available on the Internet, but more recent figures may be available directly from local sources. Because the sources of data are continuously improving in quality and extent, estimates may not be truly comparable overtime and care should be taken when comparing these estimates with those published earlier. The observed differences may be the result of a change in the methodology and should not be interpreted as a time trend effect.

Resource Type: data or information resource, data set

Related Condition: Aging

Resource Name: GLOBOCAN

Resource ID: SCR_012750

Alternate IDs: nlx_156894

Record Creation Time: 20220129T080312+0000

Record Last Update: 20260829T183235+0000

Ratings and Alerts

No rating or validation information has been found for GLOBOCAN.

No alerts have been found for GLOBOCAN.
