Proper Citation: DBAli. A Database of Structure Alignments. (RRID:SCR_013418)

Description: DBAli is a database that includes a comprehensive all-against-all comparison of protein structures in the PDB database. It is not currently being updated; however, updates should resume in the near future. All pairwise structural comparisons in DBAli have been obtained using the MAMMOTH program developed in the group of Prof. Angel R. Ortiz. All multiple structure alignments in DBAli have been obtained using the SALIGN command in MODELLER developed in the group of Prof. Andrej Sali.

Synonyms: DBAli

Resource Type: data or information resource, database

Keywords: protein, protein structure comparison

Resource Name: DBAli. A Database of Structure Alignments.

Resource ID: SCR_013418

Alternate IDs: nif-0000-02725

Record Creation Time: 20220129T080316+0000

Record Last Update: 20260905T133206+0000
