Proper Citation: dcm2nii (RRID:SCR_014099)

Description: A tool for converting images from the complicated formats used by scanner manufacturers (DICOM, PAR/REC) to the NIfTI format used by various scientific tools. dcm2nii works for all modalities (CT, MRI, PET, SPECT) and sequence types.

Resource Type: software application, software resource, systems interoperability software

Keywords: image converter, nifti format, systems interoperability software

Funding: NIDCD R01DC009571;
NIDCD U01DC011739

Availability: Available for download

Resource Name: dcm2nii
