CrimeStat

RRID:SCR_014243

Type: Tool

Proper Citation

CrimeStat (RRID:SCR_014243)

Resource Information

URL: <http://www.icpsr.umich.edu/CrimeStat/about.html>

Proper Citation: CrimeStat (RRID:SCR_014243)

Description: A spatial statistics program which provides tools for crime mapping and analyzing crime incident locations. CrimeStat is organized into five sections: data setup, which arranges and organizes the location data; spatial description, which performs analyses such as spatial distribution, spatial autocorrelation, and distance and hot spot analysis; spatial modeling, which performs a number of analyses such as Bayesian journey to crime analysis and space-time analysis; crime travel demand modeling, which detects crime patterns and correlations over time and space; and CrimeStat libraries, which are component objects that include all of the routines that were developed through version 2.0 of the regular CrimeStat program.

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: spacial statistics, data analysis software, crime mapping, crime incident location

Funding: National Institute of Justice 1997-IJ-CX-0040;
National Institute of Justice 1999-IJ-CX-0044;
National Institute of Justice 2002-IJ-CX-0007;
National Institute of Justice 2005-IJ-CX-K037

Availability: Distributed freely for educational or research purposes, May not be re-sold, Acknowledgement requested

Resource Name: CrimeStat

Resource ID: SCR_014243
