Proper Citation: StepOne Software (RRID:SCR_014281)

Description: A software program for the Applied Biosystems StepOne and StepOnePlus Real-Time PCR Systems. StepOne software allows the user to open and analyze experiments generated from either the StepOne or the StepOnePlus system. Users can set up experiments, send experiments to the instrument, control the instrument settings, and collect and analyze data.

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: applied biosystems step one, pcr, data analysis software, instrument management software, experimental control

Availability: Pay for product
