Proper Citation: FactoMineR (RRID:SCR_014602)

Description: Software R package for multivariate analysis which takes into account different types of data structure. Data can be organized in groups of variable, groups of individuals, or into hierarchy of variables.

Synonyms: factominer

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: multivariate, analysis, data, structure, organized, group, variable, individual, hierarchy

Resource Name: FactoMineR

Resource ID: SCR_014602
