Open Reading Frame Finder

RRID:SCR_016643

Type: Tool

Proper Citation

Open Reading Frame Finder (RRID:SCR_016643)

Resource Information

URL: <https://www.ncbi.nlm.nih.gov/orffinder>

Proper Citation: Open Reading Frame Finder (RRID:SCR_016643)

Description: Software tool to search for open reading frames (ORFs) in the DNA sequence. The program returns the range of each ORF, along with its protein translation. Used to search newly sequenced DNA for potential protein encoding segments, verify predicted protein. Limited to the subrange of the query sequence up to 50 kb long.

Abbreviations: ORF finder

Synonyms: Open Reading Frame finder, Open Reading Frame Finder

Resource Type: analysis service resource, data analysis software, data processing software, production service resource, sequence analysis software, service resource, software application, software resource

Keywords: search, open, reading, frame, DNA, sequence, ORF, protein, translation, data, encoding, segment, verify

Availability: Free, Available for download, Freely available

Resource Name: Open Reading Frame Finder

Resource ID: SCR_016643

Record Creation Time: 20220129T080331+0000

Record Last Update: 20260821T194058+0000

Ratings and Alerts

No rating or validation information has been found for Open Reading Frame Finder.
