Proper Citation: University of California Davis Flow Cytometry Shared Resource Laboratory Core Facility (RRID:SCR_017826)

Description: Core provides access to expertise and instrumentation for analytical flow cytometry, cell sorting and laser scanning cytometry. Cell sorting and analytical cytometers are located at three sites in Davis and Sacramento for research use on recharge basis. Provides cell sorters for assisted sorting on appointment basis and provides training to investigators in acquiring data on analytic cytometers. Can advise on experiment design for flow cytometry, provides training to enable independent use of analytical cytometers, and familiarize investigators with popular data analysis software tools such as BD Diva and CellQuest, FlowJo, ModFit and iBrowser.
