Proper Citation: readxl (RRID:SCR_018083)

Description: Software R package to import excel files into R. Has no external dependencies for easy installment and use on all operating systems. Designed to work with tabular data.

Synonyms: Read Excel Files into R

Resource Type: data processing software, software application, software resource

Keywords: Import excel files, tabular data, data processing, excel file into R

Availability: Free, Available for download, Freely available

Resource Name: readxl

Resource ID: SCR_018083
