Proper Citation: DEGreport (RRID:SCR_018941)

Description: Software R package for creation of HTML report of differential expression analyses of count data. Integrates some of code mentioned in DESeq2 and edgeR vignettes, and reports ranked list of genes according to fold changes mean and variability for each selected gene.

Resource Type: data analysis software, data processing software, software application, software resource

Keywords: HTML report creation, differential expression analyses, count data, code integration, gene list report

Availability: Free, Available for download, Freely available

Resource Name: DEGreport

Resource ID: SCR_018941
