Proper Citation: Agilent: 6470 Triple Quadrupole Liquid Chromatography Mass Spectrometer System (RRID:SCR_019421)

Description: Triple quadrupole LC/MS system for commercial, regulatory, life sciences, and research applications. It has Agilent Jet Stream ion source and curved geometry collision cell. It detects target compounds at low levels in diverse matrices, while achieving wide linear dynamic range.

Resource Type: instrument resource

Keywords: Agilent, Triple Quadrupole Liquid Chromatography Mass Spectrometer System, Instrument Equipment, USEDit

Availability: Commercially available
