Proper Citation: Rutgers New Jersey Medical School Genomic Center Core Facility (RRID:SCR_021631)

Description: Provides NGS services for research and clinical samples in CLIP and CAP accredited laboratory. Services include consultation, sample processing, sequencing and data analysis, as well as interpretation and reporting. Service support for genomics based applications including experimental design, bioinformatics, development of novel assays, grant writing and manuscript preparation. We are experienced in broad range of biological disciplines including basic biology, infectious diseases, cancer, neurobiology, immunology and clinical research. Clinical Genomics lab has extensive experience in molecular diagnostics and clinical research, and specializes in clinical biomarker discovery, validation and diagnostic test development.

Synonyms: Rutgers, Genomic center, Rutgers New Jersey Medical School Genomic Center, The State University of New Jersey Genomic center

Resource Type: service resource, core facility, access service resource

Keywords: USEDit, ABRF
