Cocaine Biobank

RRID:SCR_021796

Type: Tool

Proper Citation

Cocaine Biobank (RRID:SCR_021796)

Resource Information

URL: <https://www.cocainebiobank.org/>

Proper Citation: Cocaine Biobank (RRID:SCR_021796)

Description: Repository of biological samples from genetically characterized outbred rats that exhibit compulsive like escalation of cocaine self administration. Biological tissue bank originating from outbred rats (Heterogenous Stock rats) that have been characterized as vulnerable or resistant to cocaine addiction. Samples are available under three different conditions to maximize compatibility with wide range of applications, including generation of iPSC lines (slow freezing/LN2), histology/neuroanatomy (perfused), and molecular biology (snap-frozen).

Resource Type: biobank, material storage repository, service resource, storage service resource

Keywords: biological tissue bank, outbred rats, Heterogenous Stock rats, cocaine addiction, iPSC lines

Availability: Restricted

Resource Name: Cocaine Biobank

Resource ID: SCR_021796

Record Creation Time: 20220129T080357+0000

Record Last Update: 20260821T194206+0000

Ratings and Alerts

No rating or validation information has been found for Cocaine Biobank.

No alerts have been found for Cocaine Biobank.
