Proper Citation: University of Miami Sylvester Comprehensive Cancer Center Biospecimen Shared Resource Core Facility (RRID:SCR_022889)

Description: Provides biorepository resources, services and expertise in support of oncology research. Facilitates translational cancer research with standard operating procedures for patient consenting; protection of patient personal and clinical data; specimen procurement and processing; quality control of specimens; secured specimen storage, retrieval, and distribution; and provision of relevant de-identified clinical data. BSSR services include: biospecimen collection, annotation, processing, storage and distribution (including tissue, blood, and other fluids); plasma, serum, and peripheral blood mononuclear cell processing and cryopreservation; rapid acquisition of surgical tissue and fresh biopsies; participant screening and enrollment for biospecimen collection studies; formalin-fixed, paraffin embedded and frozen tissue retrieval, processing, sectioning, histological staining, and digital whole slide scanning; tissue microarrays production; support for non-therapeutic trials; consultation on project design, data analysis and interpretation. Offers access tobiobank of diverse tissue types, including clinically annotated neoplastic and nonneoplastic samples from diverse anatomical sites, and provides banked specimen as well as fresh specimen procurement at institution wide level. Through BSSR, investigators have access to specimens collected from University of Miami Hospital, Sylvester Comprehensive Cancer Center, Bascom Palmer Eye Institute, Jackson Memorial Hospital, as well as to specimens collected in more broadly based multi-site studies.

Abbreviations: BSSR

Synonyms: Sylvester Biospecimen Shared Resource, University of Miami Sylvester

Comprehensive Cancer Center Biospecimen Shared Resource

Resource Type: core facility, service resource, access service resource

Keywords: USEDit, ABRF, biorepository, oncology research,
