Proper Citation: JAX Animal Behavior System (RRID:SCR_023721)

Description: Video based phenotyping platform for laboratory mouse. Provides complete details of software and hardware, including 3D designs used for data collection. Data acquisition system consists of video collection hardware and software, behavior labeling and active learning app, and online database for sharing classifiers. Hardware and software solution collects high quality data for behavior analysis.

Abbreviations: JABS

Resource Type: software resource
