Proper Citation: Cleveland Clinic Lerner Research Institute Genomics Core Facility (RRID:SCR_027093)

Description: Core provides with easy access to state-of-the-art DNA and RNA services. Offers services, including Illumina microarray-based gene expression profiling, genotyping, and next-generation sequencing (NGS). Equipped with Illumina MiSeq and NovaSeq 6000 platforms, enabling efficient targeted and transcriptome-wide RNA analyses, as well as whole genome sequencing (WGS). Prepares and normalizes libraries for various applications, including RNA-seq, miRNA-seq, DNA-seq, whole-genome sequencing, and single-cell RNA-seq. Additional services include DNA/RNA quality control using Agilent Bioanalyzer and TapeStation systems, and DNA/chromatin shearing using Covaris S2 technology. In collaboration with Genomic Medicine Biorepository, provides DNA and RNA extraction services. Provides letters of support for federal and non-federal grant applications and are open to research collaborations.

Resource Type: service resource, core facility, access service resource

Keywords: DNA and RNA services, RNA-seq, miRNA-seq, DNA-seq, whole-genome sequencing, single-cell RNA-seq, DNA and RNA extraction,

Availability: Open

Resource Name: Cleveland Clinic Lerner Research Institute Genomics Core Facility

Resource ID: SCR_027093
