Proper Citation: Rush University Research Bioinformatics Core Facility (RRID:SCR_028185)

Description: Core empowers researchers from genomic, clinical, and basic sciences disciplines at Rush and beyond with cutting-edge bioinformatics resources. Provides guided data analysis and hypothesis-driven research, large-scale data analysis, analytical plan development and results interpretation, algorithm and script development for custom data processing. Provides innovative infrastructure tools, including the Research Private Cloud and scalable cloud-based solutions. Services include customized analytical solutions, data storage and management workflows, training and support for bioinformatics tools.

Synonyms: , Rush Research Bioinformatics Core, Rush Research Bioinformatics Core (RRBC)

Resource Type: access service resource, core facility, service resource

Keywords: ABRF, customized analytical solutions, data storage and management workflows, training and support for bioinformatics tools, guided data analysis, large-scale data analysis, analytical plan development and results interpretation, algorithm and script development, custom data processing,
