Proper Citation: RRID:RGD_12910940

Description: Rattus norvegicus with name SD-Cdkn1b^{we} from RGD.

Species: Rattus norvegicus

Notes: The multiple endocrine neoplasia (MEN)-like phenotype was initially identified in a Sprague Dawley rat-breeding colony and subsequently maintained by matings between affected and nonaffected littermates. Because cataracts are the first visible sign of the phenotype it was provisionally designated as "Sprague Dawley white eye." The abbreviation SDwe is used to denote animals expressing the mutant phenotype.

Catalog Number: 12910940

Background: mutant

Database: Rat Genome Database (RGD)

Database Abbreviation: RGD

Availability: Unknown

Alternate IDs: 12910940

Organism Name: SD-Cdkn1b^{we}

Record Creation Time: 20230509T191948+0000

Record Last Update: 20260919T201847+0000
